Formula One

The ultimate driving challenge - usually reserved for the best drivers in the world. Driving an authentic Formula One car is a mind-blowing experience. With 600bhp under your right foot, in a racing car capable of 0-60 in a spine-tingling 2.8 seconds, you'll have the most amazing drive of your life.

The day-long programme is designed with personal tuition to coach you to the standard required to control one of the world's fastest racing cars. You'll learn the basics of racecraft and the confidence and skills to push yourself to the limit.

Emulating a Formula One career, you will develop your driving skills in a range of high-performance cars and single seaters, before moving up to a new level in the Formula Three car.

Just like a real race, there are no pace cars on track during the F3 and Formula One drives, so it's up to you to prove your ability to handle the power and performance of the cars. In the same way as a real Formula One driver, only when you have proven your ability in F3 can you make the jump to Formula One.
